## What is the purpose of Feng Shui?

The ultimate aim of Feng Shui is to create a harmonious environment that supports the four pillars of your life (success, health, relationships and wisdom). It helps you manifest your goals, and create a truly fulfilling life.

## How much Feng Shui affects us

It is said that everything in our life is created via three levels of manifestation. Chinese call it the 'three levels of luck'; we call it the 'Law of Attraction'.

**Heavenly Luck** is related to your place of birth, time of birth, parents, culture, your talents and challenges. It creates up to 33% of your overall luck. Some people would call it 'God given', others 'karma and dharma', or 'destiny'. It is said that heavenly luck is relatively difficult to change.

**Human Luck** represents your thoughts, emotions, the way we live (education, healthcare, approach to life, beliefs etc.). It creates up to 33% of your overall luck. We can change it, but we are often limited by the aspect of time, as we need to constantly repeat these actions. It works mainly through disciplined conscious mind effort, and stops during sleep or when focused on other matters or distractions.

**Earth Luck =  
Feng Shui & Dowsing =  
Your Environment** creates up to 33% of your overall luck. It is the easiest to change as it works day and night, all the time, via your environment.

## How does Feng Shui work?

Feng Shui works through:

- ❖ **Space:** landscape formations, geographic directions, five elements, colours, images, symbols...
- ❖ **Time:** time cycles which identify positive and less auspicious places in your premises, as well as upcoming potential opportunities and challenges in your personal or business life.
- ❖ **Alignment:** of messages of your environment with your human luck over time.

## Is your home telling a story?

Your house or work space and its surroundings work as a three-dimensional vision board.

This influences you all the time when you are present at the property, and leaves its imprint when you leave the location (just like dowsing).

Your house gives messages to your conscious and subconscious mind, which either support your plans and actions (your human luck) or hinders them.

## Can Feng Shui be overcome with positive thinking?

Feng Shui influences your subconscious mind 24/7. That is why information present in your environment can have such a profound effect on what you attract or manifest. This 'information' is already there, even if you have never heard of Feng Shui.

It is not possible to overcome it permanently with positive thinking and visualisations.

## **Why is Diamond Dowsing included in a Diamond Feng Shui consultation?**

Feng Shui is influenced by earth electromagnetic fields which can strengthen or deplete the clarity of your messages. That is why the dowsing is automatically included in each Diamond Feng Shui consultation.

### **Feng Shui can help you to:**

- ❖ manifest cash flow, success, work
- ❖ find romance, friendship, the right advisors or a good team
- ❖ stay healthy, energised and maintain inner harmony
- ❖ have better a focus, inspiration, creativity
- ❖ create a space that supports manifestation of your personal or business goals
- ❖ move forward with your building/renovation work
- ❖ take timely personal and business decisions

- ❖ choose the best place to live or work
- ❖ sell or rent out your house or business premises

## **Can Feng Shui support my inner evolution?**

Feng Shui, together with dowsing creates a space that reflects your goals and shows the universe who you truly are and where you want to go in your life. It helps you to align with your higher levels of awareness, understand and fulfil your soul purpose.
